Regionally, Japan is building the platform with Australia and Asian countries by establishing the Asia Zero Emission Community (AZEC), which provides support in finance, technology, human resources and policy coordination. **To date, Japan has committed up to \$8 billion funding for projects in renewables, energy saving, hydrogen and ammonia.**

Asia's Essential International Platform for Energy Security and Decarbonisation

The future of global energy systems depends on supply chain resilience, energy efficiency, and international collaboration, underpinned by technological advancement. As energy demand continues to surge, particularly within complex supply chains, 2025 marks a pivotal year, with the world looking to Japan's leadership and innovation following the release of its latest Strategic Energy Plan.

Industry leaders and solution providers from across the global energy value chain will convene in Tokyo to present technologies, strategies, and innovations shaping the future of energy. The exhibition provides an essential space for stakeholders, from established multinationals to emerging start-ups, to accelerate the transition to a sustainable energy system.

Taking place from 18–20 June 2025 in Tokyo, Japan Energy Summit & Exhibition is where the global energy ecosystem converges to forge partnerships, advance solutions, and align strategies with the evolving priorities of the energy transition.

Why Visit?

Discover cutting-edge innovations

Bridge local expertise with global insight

Connect with key decision-makers

Drive business growth

Align with Japan's strategic vision

Climatetech Theatre

Harnessing New Thinking, New Concepts and New Ambitions, to Transform the Energy Landscape

Climatetech – Sponsored by

Comprising specially curated content, networking, and competitions, the Climatetech Theatre will provide a unique platform for students, young professionals, entrepreneurs, and industry executives alike, to explore cutting-edge ideas and innovations that will help develop new pathways in the journey towards net zero.

Energy Innovators Challenge

A peer-judged competition for Students & Young Professionals and Start-ups & Entrepreneurs to propose innovative concepts and solutions to various problem statements, representing some of the most pertinent challenges the energy sector is currently facing, as we strive to decarbonise.

Sponsored by

**THE CLIMATETECH THEATRE IS
FREE-TO-ATTEND WITH AN EXHIBITION VISITOR PASS**
www.japanenergyevent.com/visreg

Day One

Wednesday, 18 June 2025

15:15 – 15:30

Green versus pink hydrogen production in Japan: A partial circular economy approach

SPEAKER:

Dr. Venera N. Anderson, Strategy Advisor, Sustainability & Climate | Author, The Harvard Business Review Advisory Council

15:30 – 16:30

PANEL DISCUSSION:

EU-Japan business cooperation – Decarbonization opportunities in Japan and in foreign markets

Hosted by:

PANELLISTS:

Manuel Hubert, EU-side MD, EU-Japan Centre for Industrial Cooperation

Masatoshi Sato, Country Manager, ACT Group

Petter Sund, Representative Director, Baseload Power Japan

Kevin Lesaulnier, GM & Head of Sales North Asia, METRON

MODERATOR:

Florence Arnu, Manager, EU-Japan Centre for Industrial Cooperation

16:30 – 17:15

PANEL DISCUSSION:

Fusion energy: Advancing the future of clean power

PANELLISTS:

Shutaro Takeda, Co founder & Chief Strategist, Kyoto Fusioneering

Takaya Taguchi, CEO, Helical Fusion Co., Ltd.

Kazuki Matsuo, CEO, FounderEX-Fusion Inc.

Yuta Nojiri, CEO, LINEA Innovations

MODERATOR:

Masato Taketomi, Founder & CEO Vueloo, Inc

17:15 – 17:30

Decarbonising Japan: CCS innovation and insights

SPEAKER:

Zak Thomson, Field Development Consultant, Xodus

17:30 – 17:45

Enhanced gas separation: Next-gen membranes for hydrogen and helium recovery

SPEAKER:

Peter Bartlett, Tyrell Solution

Day Two

Thursday, 19 June 2025

14:15 – 15:10

ENERGY INNOVATORS CHALLENGE

The Energy Innovators Challenge is a peer-reviewed competition that invites individuals and companies to showcase new concepts and groundbreaking solutions to real-world challenges facing the energy sector today. All submissions will be reviewed by a panel of industry experts, with a shortlist of the most exciting solutions invited to attend the Japan Energy Summit & Exhibition to present their topic on stage to the industry. A prize will be given to the winning response from each category.

Sponsored by:

15:15 – 15:30

Bidding strategies for Japan's frequency markets and the impact on BESS revenue optimisation

SPEAKER:

Scott Berrie, Director of Origination (Europe & APAC) in Sales ROW UK, GridBeyond G.K.

15:45 – 16:30

Hosted by Sulzer: Carbon capture technologies: Bridging the gap to a low-carbon world

Hosted by:

SPEAKERS:

Tatsuo Masuda, Professor, Kaishi Professional University

Thomas Winkler, Global Application Manager CCS, Sulzer

Dr. Thomas Koller, Regional Hydrogen and CCUS Segment Lead, APAC, DNV

16:30 – 17:15

PANEL DISCUSSION:

Hosted by the Asia Sustainable Aviation Fuel Association (ASAFA)

Hosted by:

PANELLISTS:

Thomas Maurisse, SVP – Strategy & Growth Asia & Middle East, TotalEnergies

Helene Burger, Head of International Cooperation & Sustainability-APAC, Airbus

Jan Lueckhof, Senior Expert Sustainable Aviation, DHL

Yvon Bernard, Business Development Manager, Axens

Sylvia Low, Regional Director APAC, IPointFive

MODERATOR:

Fabrice Espinosa, Founder & CEO, Asia Sustainable Aviation Fuel Association

17:15 – 17:30

e-Methane: Unlocking the net-zero transition for consumers and industry using existing infrastructure and proven technology

SPEAKERS:

Bowen Ding, Business Developer, Johnson Matthey

Dominic Winch, Strategic Market Manager-Future Technologies, Johnson Matthey

Day Three

Friday, 20 June 2025

14:55 – 15:40

From strategy to action: Scaling up renewables for a sustainable future

SPEAKERS:

Abby Symes, Chief Corporate & Government Affairs Officer, I-Pulse Inc.

Ganesh Karki, President, IPPAN

15:40 – 15:55

Optimization of procurement strategy for virtual power purchase agreement subject to credit risk management.

SPEAKER:

Dr. YuLi Tsai, President, Tokyo Computing

15:55 – 16:10

SBTi Net-Zero Standard: Accelerating Corporate Climate Decarbonization

SPEAKERS:

Jihyun Kim, Stakeholder Engagement Manager, Impact Department, Science Based Targets initiative

Kae Takase, Senior Manager-Climate Change, Renewable Energy Institute

16:10 – 16:25

Reducing Daily Employee Carbon Emissions with the Perwira Emission Reduction Program (PRIMA) at Pertamina Drilling

SPEAKER:

Andro Ramada, HSE Coordinator, Pertamina Drilling Services Indonesia

16:25 – 16:40

Biomass solid fuels for de-fossilization

SPEAKER:

Takeshi Maeda, Senior Reporter, Argus Media Japan

Strategic Summit

The Strategic Summit unites influential leaders and decision-makers from across the regional and global energy sector to drive critical discussions that are essential for advancing the energy transition.

Over three days of packed content, delegates can delve into key topics such as energy demand, security, sustainability, transformation and the role of AI and digitalisation in driving energy efficiency. Featuring keynote speeches, expert panel discussions, and in-depth case studies, the Summit will provide groundbreaking insights into the challenges and opportunities shaping the energy landscape in Japan and the wider Asia Pacific market.

Themes

**ENERGY
DEMAND**

**ENERGY
SUPPLY**

**ENERGY
COLLABORATION**

**ENERGY
DIGITALISATION & AI**

**GREEN
TRANSFORMATION (GX)**

BOOK YOUR DELEGATE PASS

Day One

Wednesday, 18 June 2025

OPENING CEREMONY

Securing tomorrow: A vision for sustainable growth in the energy sector

Accelerating Asia's ambitions: Fostering international cooperation for a sustainable future

Balancing rising power demand and decarbonisation objectives to deliver a pragmatic energy transition

NETWORKING LUNCH

LNG as the global energy backbone: Balancing growth, decarbonisation, and security

Unlocking hydrogen's potential: Pathways to scale and market maturity

Collaborating to scale ammonia use and advance decarbonisation objectives

Futureproofing the electricity grid to manage new complexities and support sustainable growth

Balancing unprecedented growth in energy demand driven by AI and data centres across Asia with emerging economic and market opportunities

Day Two

Thursday, 19 June 2025

Harnessing CCUS: Transforming Asia's industrial and energy sectors

Building a resilient LNG market in Asia: Supply, stability, and sustainability

Securing LNG's role as a fuel for a net-zero future

NETWORKING LUNCH

Unlocking energy transition opportunities in shipping

Achieving a net-zero future: Strategic directions and innovations in nuclear power

Fuelling the Future: Pioneering the next wave of clean energy with alternative fuels

The future of carbon markets: Unlocking Asia's potential for emission reductions

Financing the shift: New routes for energy investment in Asia

Power markets: Creating a reliable, affordable, and integrated electricity system through markets and market-like mechanisms

Women in Energy: Increasing representation in the energy sector to foster innovation, address skill shortages, and enhance competitiveness

Day Three

Friday, 20 June 2025

Achieving carbon neutrality by 2050: Putting METIs 7th Strategic Energy Plan into action

Building a market for green products: Japan's pathway to a sustainable GX economy

From sun to sea: Harnessing Japan's renewable potential to drive sustainable growth

Beyond the grid: The role of batteries in sustainable energy solutions

Building a resilient supply chain for critical minerals to support the clean energy transition

Technical Conference

The Technical Conference brings together leading engineers and technical experts from across the regional and international energy value chain to showcase cutting-edge innovations and solutions that will enable Japan, Asia-Pacific and the world to successfully transition to a low carbon future.

Curated by a specialist Technical Committee of leading industry experts, with speakers invited based on an extensive abstract selection process, the Technical Conference will highlight the latest research behind new advanced solutions and demonstrate their practical application and impact across key technical categories essential to the future of clean, affordable and secure energy.

The Technical Conference is located on the Climatetech Theatre. Purchase a Technical Conference Pass or an All-Access Pass to gain access to these sessions.

Day One

Wednesday, 18 June 2025

THEME: ENERGY TRANSITION & DECARBONISATION

Session: Energy Efficiency & Sustainability

Pioneering techniques for drilling extended reach wells in complex reservoir

India reaching NetZero by 2070: Possible scenarios with LIFE initiatives

Decarbonisation by improving fired heater efficiency to ≥95%

The benefits of third-party certification and verification for geological storage projects

Decarbonisation of steam crackers: Can hydrogen really replace natural gas in steam crackers?

Session: Strategic Planning & Capital Management

Eliminating the cost and space barriers for small-to-midsize emitters through fully column less and modular carbon capture technology

Digital solutions for planning & strategy development towards net zero emission targets

Innovative Carbon Dioxide Capture and Fuel Recycling (CCFR) Technology for decarbonising limestone manufacturing in Okutama, Japan

Conversion to a green refinery configuration: Assessing options, risks, and viability

Session: Trade & Capital Management

Carbon border adjustment mechanisms: How decarbonising trade will affect oil-producers in the gulf?

Financing & investment: Green finance for sustainable development and feasibility of carbon offsets

Ensuring an equitable energy transition

Cryogenic carbon and sulphur capture demonstration

THEME: AI & DIGITAL TRANSFORMATION

Session: AI for Energy

Empower utility load forecasting with Gen-AI

Roadmap to a digitally born facility of the future in the new energy era: Gain operational excellence & sustainable value with AI-enabled decision making

Averting catastrophe: An AI-driven predictive model for pipeline risk mitigation

VISIT THE WEBSITE FOR THE FULL AND LATEST SPEAKER LIST AND AGENDA:
www.japanenergyevent.com

Day Two

Thursday, 19 June 2025

THEME: HYDROGEN & AMMONIA

Session: Production, Applications & Infrastructure

Hydrogen to decarbonise power and maritime sector in island ecosystem

Hydrogen and ammonia markets facing roadblocks need new solutions

Research and development of large-scale ammonia cracking technology for low-carbon hydrogen production by tubular ammonia cracking furnace

Optimising hydrogen compression: Evaluating efficient hybrid solutions

THEME: RENEWABLES

Session: Wind, Solar, Biomass & Thermal

Assessment of red yeast to convert lignocellulosic sugars into lipids to produce Sustainable Aviation Fuels precursor

Articulating solar tracker design eliminates land grading on complex terrain for sustainable, low-impact solar development

Challenges in valorising biogas from palm oil mills effluent in peninsular Malaysia

Repurposing of pharmaceutical industry solvent wastes into biodiesel feedstock

THEME: NATURAL GAS & LNG

Session: E&P – New Projects & Investments

Multi-layer barrier coating to retrofit natural gas transmission pipelines to safely transport CO₂ or hydrogen

From stranded to valued: Gas-to-liquid as a monetization solution for isolated gas reserves in Indonesia

The role of Abaxx physically settled LNG futures in LNG trading and market mechanisms

Ship-shore safety links: What is the future?

ENERGY INNOVATORS CHALLENGE

The Energy Innovators Challenge is a peer-reviewed competition that invites individuals and companies to showcase new concepts and groundbreaking solutions to real-world challenges facing the energy sector today. All submissions will be reviewed by a panel of industry experts, with a shortlist of the most exciting solutions invited to attend the Japan Energy Summit & Exhibition to present their topic on stage to the industry. A prize will be given to the winning response from each category.

Day Three

Friday, 20 June 2025

THEME: AI & DIGITAL TRANSFORMATION

Session: Innovation & Project Planning

Digitalisation of product carbon foot printing

Driving business efficiency in CGD through digital twin implementation

Increasing power quality by using machine learning

THEME: GRID UTILITIES

Session: Grid Infrastructure & Integration

How are power systems dealing with high-level of variable renewable energy penetration in APAC?

Japan-Africa cooperation: Co-creating a sustainable future for Africa

THEME: TRANSPORTATION, STORAGE & INFRASTRUCTURE

Groundbreaking metal-free Li-air battery cell for multi-technique operando Synchrotron analysis

The effect of plastic deformation on hydrogen diffusion in additively manufactured nickel Alloy 625

THEME: FRONTIERS IN CLIMATE TECHNOLOGIES

Emission monitoring to value creation: A product level carbon traceability framework for upstream energy

Integrating carbon monitoring with circular economy strategies for green energy solutions

THEME: HYDROGEN & AMMONIA

Session: Production, Applications & Infrastructure

Hydrogen as a blend into diesel engine as a pathway to reduce carbon emissions for transport and energy applications

A system view: Enhancing end-to-end efficiencies across the hydrogen value chain

Boosting ammonia cracking catalyst development by high throughput experimentation at elevated pressures and temperatures

Advance energy efficiency and sustainability with free in line turboexpander technology

Simultaneous Translation Available [All Languages]

Compatible with all mobile devices

Reminder: Bring your headphones to avail of the service

SECURE YOUR DELEGATE PASS:

japanenergyevent.com/delegateregistration

The Technical Conference is only accessible to Technical Conference or All-Access Conference Pass holders.

Networking Opportunities

The event provides networking opportunities with the aim of enhancing cross-sector and multilateral collaboration and the exchange of ideas, creating the perfect environment for industry leaders and innovators to meet face-to-face and forge new business partnerships.

Day One, 18 June, 19:00 – 21:00 | Invitation Only

Official Welcome Reception

The Official Welcome Reception marks the prestigious opening of the Japan Energy Summit & Exhibition, offering an exclusive and elegant evening to celebrate the commencement of this influential event.

Scheduled for the evening of Day One (18th June) at a distinguished venue, this invitation-only reception brings together esteemed speakers, delegates, and exhibitors to network and engage over carefully curated welcome drinks and authentic local cuisine.

This refined gathering provides an unparalleled opportunity to foster meaningful connections, initiate dialogue, and set the stage for three days of high-level discussions and collaboration shaping the future of energy.

Sponsored by

Day Two, 19 June, 08:30– 09:30 | Delegates Only

Future Leaders Networking Breakfast

The next generation of energy leaders will gather at the Future Leaders Networking Breakfast, an exclusive event designed to inspire collaboration and connection among young professionals shaping the future of the energy industry.

Taking place on Day Two (19th June), from 8:30 – 9:30am in the Delegate Lounge, this session is open to all delegates, with a dedicated focus on professionals under 35 who have secured the Young Professionals Delegate Pass.

Day Two, 19 June, 19:00 – 20:00 | Open to All Attendees

Women in Energy Networking Reception

Celebrate the contributions of women driving progress in the energy sector at the Women in Energy Networking Reception, a dedicated event that champions diversity, equity and inclusion.

Taking place on Day Two (19th June) of the event in the Delegate Lounge and open to all attendees, this inspiring gathering provides a platform for meaningful connections, fostering collaboration among women leaders, innovators and allies from across the energy value chain.

Group Bookings

Unlock great savings by attending the conferences as a delegation. Team members can attend 70+ sessions providing more opportunities to discover new solutions and strategies and increase the number of interactions with both peers and industry experts.

Getting to the Venue

Tokyo Big Sight offers smooth and diversified access not only from central Tokyo and all other regions of Japan, but from around the world as well.

FROM THE AIRPORT

- Haneda Airport – Approx. 25 minutes drive by Airport limousine bus
- Narita Airport – Approx. 80 minutes drive to Tokyo Bay Ariake Washington Hotel by Airport limousine bus. From there, it is a 3-minute walk to Tokyo's Big Sight.

BY BRT/BUS

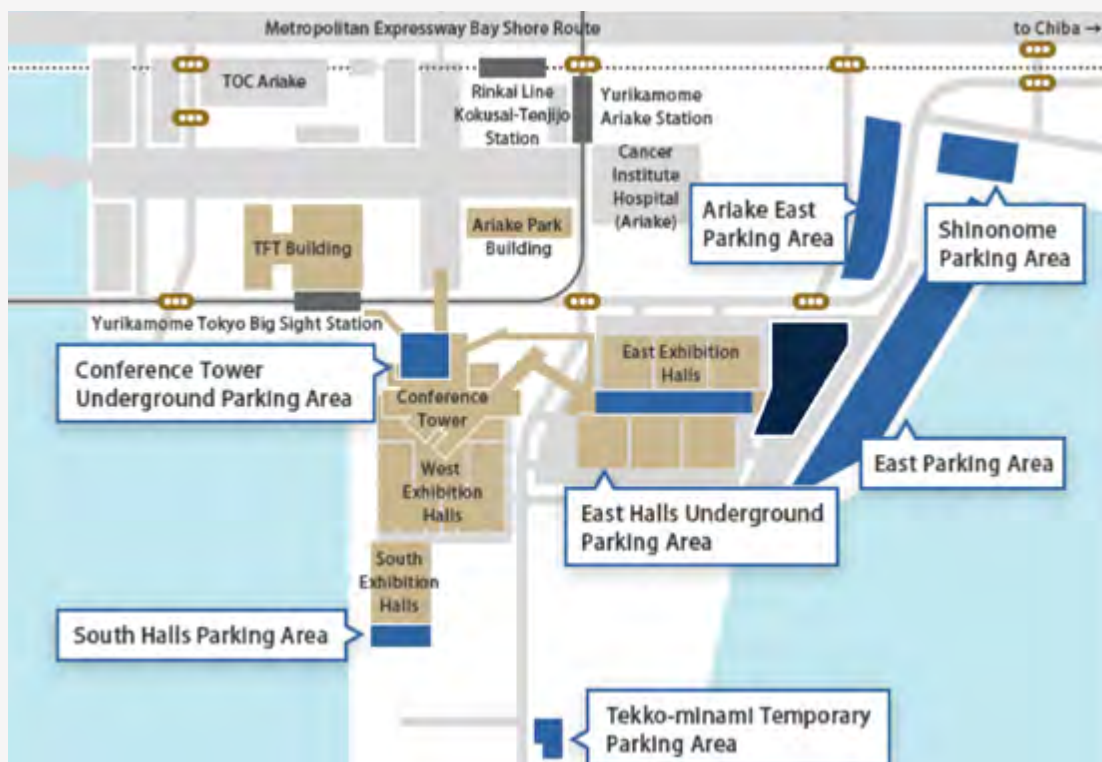

Board the BRT at Shimbashi station and disembark at Kokusai Tenjijo station, with a travel time of approximately 17 minutes. Upon arrival, a brief 7-minute walk from the station will lead you directly to the venue.

BY TRAIN

- Rinkai Line – Approx. 7-minute walk from Kokusai-Tenjijo Station
- Yurikamome – Approx. 3-minute walk from Tokyo Big Sight Station

BY CAR

When traveling from central Tokyo, follow Route 11 (Shuto Expressway) and take the Daiba IC exit, which is just a short 5-minute drive from Tokyo Big Sight.

Preparing for your Visit

ACCESS TO THE CONFERENCE AND EXHIBITION

All attendees, including speakers and exhibitors, are required to wear their badges at all times throughout the duration of the event. This includes networking & lunch breaks and the evening reception.

WI-FI

Wi-Fi is available for all attendees of our event at any given time and space. To access the Wi-Fi, delegates will be prompted to enter their mobile numbers and get access after SMS verification.

DRESS CODE

Business attire is required for all attendees of Japan Energy Summit & Exhibition. The dress code is also required for any Drinks Reception after the event.

EMERGENCY PROCEDURES

In the event of any emergencies, please follow the instructions of our staff and the venue staff.

PHOTOGRAPHY

The organisers of Japan Energy Summit & Exhibition have a designated professional photographer taking pictures throughout the duration of the event.

These photographs may be used for marketing collaterals, post-event reports and supplied to industry media. Please let our photographer know if you do not want your photo taken.

PUBLIC SAFETY

Japan is a favorite among solo travelers because of its security and safety. It is a country that is consistent when it comes to its low crime rate. It's so safe that you often see young kids walking and taking public transportation by themselves.

If you're a fan of going out at night, you can also safely enjoy the nightlife by yourself, which is one of the reasons many people enjoy traveling by themselves to Japan.

PUNCTUALITY

You must respect people's time if you're going to be traveling to Japan. Whether you're an international business person or a tourist, Japanese culture is strict regarding punctuality. If you're meeting with the locals in any way, be on time or they will think you are rude.

CASH & CREDIT CARDS

Although Japan is very advanced in terms of technology, it is still very much a cashdriven society and many shops, restaurants etc. will not accept credit card. For this reason, it's always good to have local currency on you.

You may also get a Suica or Pasma travel card which can be used for traveling on public transportation and purchasing items from shops.

TIPPING

Unlike in other places, Japan doesn't have a tipping culture, so you are not expected to tip your service providers. The reason for this is that they get a liveable wage, so servers don't depend on tips to live, unlike in other places.

Even if you insist on tipping them, they'll try their best to give it back to you.

VISA COUNTRY EXEMPTIONS

- https://www.mofa.go.jp/j_info/visit/visa/short/novisa.html

ELECTRICITY

The Japanese Electrical Standards are as follows:

- ◇ Electric plug type A (two parallel flat pins) & type B (a round grounding pin and two flat parallel pin).
- ◇ Voltage 100 volts
- ◇ Frequency 50Hz – 60Hz

EMERGENCY PROCEDURES

In the event of any emergencies, please follow the instructions of our staff and the venue staff.

EMERGENCY SERVICES

- Police: Dial 110
- Ambulance: Dial 119
- Fire brigade: Dial 119

Note that English-speaking dispatchers may not be available. If you need assistance, you should be able to describe your address/location

TRANSPORTATION

If you are landing at Narita Airport at night, consider arranging an airport transfer as public transportation is not available 24 hours and typically ends around 21:00 or 22:00.

WEATHER

While it can be humid in Tokyo, June is typically a rainy season. Be prepared to bring an umbrella around.

FOOD

If you require vegetarian or vegan options, major hotels and restaurants should be able to accommodate. Smaller food outlets, however, may not offer the option.

The world is looking to Japan, the stage is set in Tokyo.
